THANK YOU FOR PURCHASING THIS PRODUCT

Wooden Post (Supplied by customer)

Gate

Chain Latch Detail
Assemble chain to
gate as illustrated.
Gate

2" Dia. Gates Only

Ref. No.	Description
1	Nut, Hex Jam Plated
2	Washer, Flat Plated
3	Bolt Hook, Plated
4	Hinge, Plated
5	3/8" Carriage Bolt ZP
6	Nut, 3/8" NC Heavy Hex Flanged ZP
7	1/0 Plated Chain
8	Hex Bolt, 5/16" -18 x 3/4" ZP
9	Nut, 5/16" -18 Flange ZP

1. Drill holes in wooden post all the way through. *(NOTE: 2" gates require 3/4" bolt hooks and 1-5/8" gates require 5/8" bolt hooks. Drill hole sizes accordingly).*

2. Thread each bolt hook (3) with a nut (1) and washer (2) as illustrated. Place in the hole with the pintle side on the end where the gate is to be hung. To ensure the gate is fastened securely, place one bolt hook down and one up (see illustration).

3. Thread bolt hooks (3) on end with washer (2) and nut (1).

4. Install hinges (4) on gate. An extra long bolt is provided as a starter bolt to compress the hinge. After the hinge is compressed, place bolt (5) through hole and screw on nut (6). Tighten the bottom hinge and leave top hinge loose in order to slide it.

5. Place gate on bottom bolt hook (3). With gate in position, slide top hinge (4) onto bolt hook (3) and fasten securely in place.

**NOTE: Hardware Package contains either bolt or screw hooks, but not both)**

Ref. No.	Description
1	Screw Hook, 5/8" x 6" x 2" Pin, Plated
2	Hinge, Plated
3	3/8" Carriage Bolt ZP
4	Nut, 3/8" NC Heavy Hex Flanged ZP
5	Chain Ass'y. complete with snap

RAMM Horse Fence & Stalls Wire-Filled Gates require 2 plated hinges to be installed - one on the top and one on the bottom.

1. Drill 3/8" pilot holes in wooden post using gate as a guide.

2. For installing screw hooks (1), manually screw into post using pilot holes. Place one screw hook up and one down as shown in the illustration above.

3. Install hinge (2) on gate. Pace bolt (3) through hole and screw on nut (4). Leave hinge loose in order to slide it.

4. Place gate on bottom screw hook (1). With gate in position, slide top hinge onto top screw hook and fasten securely in place.

NOTE: Hardware Package contains either bolt or screw hooks, but not both)
