Harris Area Light Lumen Select, Gen 1

Customize your exterior lighting with tool-less lens swap for quick and effortless in-field flexibility.

Keep fewer SKUs in inventory while providing in-field flexibility to meet customer requirements.

CORE FEATURES

Field Adjustable CCT

Adjust your color temperature to meet your aesthetic needs with 3000K, 4000K, and 5000K CCT options.

Field Adjustable Wattage

Adjust light levels to meet required footcandles for unique exterior areas. Multiple fixture configurations with lumen packages from 12,000 to 42,000 lumens.

Various Light Distribution Types

Increase lighting effectiveness, safety, and energy savings with the right amount of light for each application.
